

# CAVIAR COLLAGEN

## Hydro-active and firming

A treatment that tightens and rejuvenates mature skin.

### DESCRIPTION:

Designed as a "second skin", the Collagen Veil has a great affinity for skin tissue. Comprised of collagen fibres obtained via freeze drying and a caviar extract, the Caviar Collagen Veil and the Collagen Activator will regenerate and leave a long-lasting hydro-protective film on the surface of the skin.

### ACTIVE INGREDIENTS:

#### Collagen:

- Hydrates with so much moisture that a "hydrophilic net" is formed across the surface of the skin
- Due to the compatibility of collagen with the skin, this moisture is retained for a prolonged period of time, giving a plump, firm result and minimizing fine lines

**Caviar extract:** Rich in marine trace elements, amino-acids, A and D vitamins which are essential for the beauty and the regeneration of the skin

- Improves and intensifies elasticity, restores radiance
- Protects against free radical damages, intensifies the natural defence action and slows down the ageing process

#### Mucopolysaccharides:

- Improve cutaneous flexibility and elasticity.
- Preserve the moisture level and activate cellular transfer

### RESULTS:

**Hydrating action:** The Collagen Veil treatment leaves a long-lasting hydro-protective film on the surface of the skin.

**Firming action:** Firms and regenerates the skin, restores radiance and smoothes fine lines and wrinkles.

**Anti-fatigue effect:** energises tired looking dull skin.

#### APPLICATION FREQUENCY:

**As part of treatment series:** Once a week

**For maintenance:** Once or twice a month

#### At home

**Daily care:** Firming Cream or Nourishing Cream

**Intensive care:** Repair Serum in the evening under the moisturiser

### Application

1

Apply Repair Serum

2

Apply and moisten mask with Activator

3

Leave mask on for 20 minutes

4

Remove mask

5

To end treatment, apply Firming Cream
