

LIFTING MASK

Muscle lift and tightening of skin

An outstanding firming treatment. It stimulates facial muscles, accelerates blood circulation and has a toning effect on the skin.

DESCRIPTION:

A fine powder that is mixed with a special gel. Supple at first, it forms a self-tightening film over the skin.

The Lifting Mask treatment tones the skin and gives the face a younger, more vigorous appearance.

ACTIVE INGREDIENTS:

Soya:

Rich in proteins and lipids which contain phosphorus, a trace element essential for muscular energy. Well tolerated by even the most sensitive skins, it helps to stimulate the collagen and elastin synthesis

Spirulina:

Rich in amino acids, fatty acids, minerals and vitamins. Combined with soya, it provides intense revitalization for the skin.

Albumin:

Smooths, retightens and rejuvenates the features.

Plant trace proteins:

Activate energy, add density to tissues in order to make them more resistant to deformation.

RESULTS:

Improves cutaneous muscle: Stimulates the contraction of slack fibres and invigorates the muscles of the skin by increasing tension on them.

Generates firmness and elasticity: Visible improvement at the end of the treatment. The skin is superbly restructured.

APPLICATION FREQUENCY:

As part of treatment series: Once a week

For maintenance: Once a month

At home

Daily care: Firming Cream or Nourishing Cream

Intensive care: Revitalizing Serum in the evening under the moisturiser

Application

1

Mix with a brush 1 teaspoon of Lifting Mask powder with 2 teaspoons of Lifting Gel

2

Apply mask with long brush strokes from center of the face in an upward and outward motion

3

Let mask act for 30 minutes. It will dry and tighten the skin

4

Remove mask with a cloth or moistened sponges

5

To end treatment, apply Firming or Nourishing Cream
