

SKIN PERFECT

Radiance and Vitality

For all skin types, even the most delicate,
from the appearance of early wrinkles or following exposure to the sun.

DESCRIPTION:

A non woven tissue impregnated with a concentrate of soothing and effective active ingredients. This special formula is based on Dermolectine®, a leading plant-based cell growth stimulator which has been proven to reduce wrinkles.

ACTIVE INGREDIENTS:

Dermolectine®:

- Stimulates the natural production of structural proteins
- Combats the natural ageing of the skin by acting directly on the fibroblasts responsible for the production of support fibres (elastin, collagen)

Marine Collagen:

- Hydrates and retains moisture, minimizes fine lines
- Energises tired looking skin

Extract of beech bud (Gatuline®):

- Anti ageing agent. The oxygen consumption of the cells becomes more dynamic and their energy reserves increase

Wheat protein:

- Actively tightens skin tissue and smoothes wrinkles

Sodium hyaluronate:

- An active ingredient known for its intense moisturizing ability
- With its film forming action, it slows down loss of moisture

RESULTS:

Enhances radiance and fairness: Removes tiredness and signs of stress while enhancing the complexion. The skin tissue is regenerated gaining a new lease on life.

Improves wrinkles and fine lines: Smoothed and levelled, the face and neck assume a new texture. Wrinkles and fine lines are softened.

Rejuvenated and relaxed, the skin radiates a healthy freshness.

APPLICATION FREQUENCY:

As part of treatment series: Once a week

For maintenance: Twice a month

At home

Daily care: Nourishing Cream or Firming Cream

Intensive care: Revitalizing or Repair Serum
in the evening under the moisturiser

Application

1

Apply Repair or Revitalizing Serum

2

Lay mask on face

3

Smooth out mask to remove air bubbles

4

Leave mask on for 25 minutes

5

Remove mask and gently massage any surplus product

6

To end treatment, apply Firming or Nourishing Cream
